TROPICAL CYCLONE BULLETIN NO. 26

Tropical Storm “DANTE” (CHOI-WAN)

Issued at 8:00 AM, 3 June 2021

Valid for broadcast until the next bulletin at 11:00 AM today.

HAZARDS AFFECTING LAND AREAS
<p>Heavy Rainfall</p> <p>Today, Tropical Storm “DANTE” is forecast to bring:</p> <ul style="list-style-type: none"> Moderate to heavy rains over Pangasinan, Zambales, Bataan, Occidental Mindoro including Lubang Islands, and Calamian Islands Light to moderate with at times heavy rains over Ilocos Region Cordillera Administrative Region, Tarlac, Pampanga, Bulacan, Metro Manila, Rizal, Laguna, Cavite, Batangas, Oriental Mindoro, and the northern portion of mainland Palawan including Cuyo Islands Under these conditions, scattered flooding (including flash floods) and rain-induced landslides are expected, especially in areas with high or very high susceptibility to these hazards as identified in hazard maps. Adjacent or nearby areas may also experience flooding in the absence of such rainfall occurrence due to surface runoff or swelling of river channels. <p>Severe Winds</p> <ul style="list-style-type: none"> Strong winds to gale-force winds are possible over the areas where Tropical Cyclone Wind Signal #2 is hoisted. Such conditions may bring generally light to moderate damage to structures and vegetation. Strong winds (strong breeze to near gale) which may cause generally very light damage to structures and vegetation may be experienced in areas where TCWS #1 is in effect.
HAZARDS AFFECTING COASTAL WATERS
<ul style="list-style-type: none"> In the next 24 hours, rough to very rough seas (2.5 to 4.0 m) will be experienced over the seaboard of areas where TCWS #2 is in effect. Sea travel is risky for small seacrafts over these waters. Mariners without the proper experience should immediately seek safe harbor. Moderate to rough seas over the seaboard of areas where TCWS #1 is in effect, the remaining seaboard of Northern Luzon (1.5 to 3.5 m), the remaining seaboard of Central Luzon, and the seaboard of Extreme Northern Quezon including the northern and eastern coastal waters of Polillo Islands (1.5 to 2.5 m). Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. Inexperienced mariners should avoid navigating in these conditions.
TRACK AND INTENSITY OUTLOOK
<ul style="list-style-type: none"> Over the West Philippine Sea, “DANTE” will continue tracking generally north northwestward in the next 12 hours before turning north northeastward this afternoon or evening and northeastward tomorrow morning. “DANTE” will be over the Bashi Channel tomorrow afternoon or evening. “DANTE” is forecast to weaken into a tropical depression within the next 12 hours and into a remnant low on Saturday.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

Unless an intermediate bulletin is released, the next tropical cyclone bulletin will be issued at 11:00 AM today.
